

SCHOOL SURFING PROGRAMS

In 2018 Surfing Cronulla Surf School and Cronulla Surfing Academy joined forces to provide quality ocean safety and surf education programs for schools throughout Sydney.

Our program is run in conjunction with Surfing Australia's Safe Surfing Program and the NSW Education Department Risk Assessment guidelines. Our Safe programs are endorsed by the Australian Sports Commission. We tailor our programs to suit your school and participants.

Cronulla Surfing Academy has over 17 years' experience in teaching the thrill of surfing as well as educating students on how to identify the dangers of the ocean.

Each of our coaches each hold a Level 1 Coaching Certificate with Surfing Australia, as well as Senior First Aid Certificate. All staff are also registered with the Department of Sport and Recreation to "work with children".

During the sessions students will learn to how to identify rips, sandbanks and safe swim zones so that they can make safe choices when in the water when it comes to swimming and catching waves.

We currently have 35 schools both primary and secondary participating in our ocean safety and surfing programs which we run year round from Wanda and North Cronulla Beaches.

We are committed to delivering high quality surf awareness and surf safety programs.

If you would like to discuss opportunities for your school to participate, please contact us. We look forward to discussing our services with you.
